Selection of models to suit your lifestyle

ENHANCE HOME VALUE:
Immediately increase value of your home while investing in the future

UT Elevator Inc.

Today, residential elevators are becoming a mainstream item for your home. Families are increasingly choosing to add a new level of convenience to move about their homes.

Family owned and operated for 25 years, UT Elevator remains on the forefront of this burgeoning field. We have been providing homeowners with the freedom they desire and showpieces to complement their décor.

We understand that your home is your sanctuary so we take extra steps to find out what matters to you. This allows us to build and maintain long lasting customer relationships.

Industry Leader for Custom Design with the Experience to Prove It

Whatever the challenge, our design team can find a way to make your vision a reality. Our engineers design unique solutions to overcome structural obstacles while prioritizing aesthetic considerations.

IN-HOUSE ENGINEERING, MANUFACTURING, AND INSTALLATION We take pride in owning every aspect of our product. We offer products which are proudly designed and manufactured in our North American facility.

INNOVATIVE STAFF OF PROFESSIONALLY LICENSED ENGINEERS Over the years, we have emerged as the primary source for innovation in dealing with unique design situations. We have developed a reputation for taking on challenges and delivering products of the highest caliber.

SPECIALIZING IN GLASS ELEVATORS With our extensive list of quality suppliers we are able to accommodate any material and implement a wide array of end-user fixtures to match your style.

STEP BY STEP ASSISTANCE From obtaining permits and integrating with architectural plans to choosing finishes and scheduling maintenance we are with you every step of the way.

“UT is a family owned business, and I could see right away how committed they were to providing excellence, both in design and service. I was impressed with how diligent they were.

They came in on price and on time.”

*Renée Unger,
of Renée Gourmet Sauces*

From start to finish we leverage our experience to customize a reliable and distinctive elevator catered especially to your needs

Design

Whether renovating your current home or building a new one we work to ensure you get what you want. The design phase offers homeowners a chance to interact with UT Elevator staff in experimenting with various concepts.

Build

Our elevators are manufactured and installed to meet or exceed your local building codes. We have a wealth of experience guiding architects and homebuilders through the construction process emphasizing budget and time constraints.

Finish

Enrich the interior design of your home as we work with you to finish your elevator and help you choose materials that will make it a part of your home.

Maintain

We have tailored our extended warranty program to surpass industry standards. Quality service is our priority as well as yours and we will help direct you to reliable maintenance companies. We form relationships with all our customers and work to maintain satisfaction and peace of mind.

Think outside the box to design your custom elevator or select from our pre-designed models

All our models offer Machine Room-Less (MRL) technology incorporating a state of the art gearless traction machine to deliver a smooth ride with minimal noise output.

Executive Cab

Solid wood panelling exudes luxury and charm. Flexibility to suit each unique interior includes choices of raised or recessed panelling, wood type and grain, and panel layout.

Signature Cab

The signature cab is a contemporary design choice featuring elegance and durability. The interior panelling is custom engineered to combine added strength with a modern look.

Standard Cab

The standard cab offers a distinctive yet affordable choice. Whether it is for accessibility or matching your home's décor, the standard cab incorporates both function and form.
